Farm Update

Q. How will the farm look this fall?

A. Presently we have planted over 12 acres of pumpkins. And that means your family can look forward to coming to the farm and keeping that tradition of picking out your pumpkins!

We are also working on some new and adapted activities that will follow health officials' guidelines and keep everyone safe – stay tuned for details!

NEW Summer 2020

This summer we will showcase the local fruits and vegetables as they ripen in season and use them in our feature bakery and soup options. These items will be available for a limited time and are a great way to try something new that is in-season. Our present feature item is Strawberry-Rhubarb Pie and Strawberry-Rhubarb Crumble Pie. Order yours today, before they are gone!

From our Family to your Family:

Hope you are all well and safe. We want to thank everyone for supporting our local family business.

We wish all Fathers a Very Happy Fathers Day!
